

**RESILIENT COASTS**  
FOR SALMON 

# TREASURE MAP

## READY TO EXPLORE?

Take this treasure map down to your local shoreline and see what organisms you can spot! Be sure not to disturb these organisms, and remember to leave everything as you found it.

ADULT SALMON

☐

BARNACLES

☐

SEA LETTUCE

☐

NOOTKA ROSE

☐

SCULPIN

☐

LIMPETS

☐

BULL KELP

☐

ARBUTUS

☐

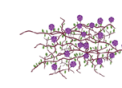

SAND LANCE

☐

MUSSELS

☐

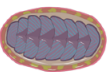

EELGRASS

☐

PINK SAND  
VERBENA

☐

FORAGE FISH

☐

CHITON

☐

SNORKELER

☐

Did you know that there can often be little fish eggs in the sand at the beach? Pacific sand lance lay their eggs (roe) in the sand when the tide is high. When the eggs are ready to hatch, they wait for another high tide to cover the sand, then they enter the sea!

SEAL

☐

PERIWINKLE

☐

ORCA WHALE

☐

PHYTOPLANKTON

☐

SEA STAR

☐

EAGLE

☐

ZOOPLANKTON

☐

CLAMS

☐
